Ifølge straffeloven om narkotiske midler betragtes de overjordiske dele af planten khat (*Catha edulis*) samt svampene *Psilocybe semilanceata* (*psilocybin*) og *Psilocybe cubensis* også som narkotiske midler. Det samme gælder for andre svampe, der indeholder stofferne *psilocybin* eller *psilocin*, hvis svampene er dyrket, eller hvis de er tørret eller på anden måde tilberedt.

Ved fortolkning af loven forstås endvidere ved "cannabis" de overjordiske dele af alle planter af Cannabis-slægten (med undtagelse af frø), hvorfra harpiksen ikke er udvundet, og uanset under hvilke navne de optræder. Ved cannabis skal dog ikke forstås hamp, som:
