6. Within the framework of the notification procedure under Directive (EU) 2015/1535 laying down a procedure for the provision of information in the field of technical regulations and of rules on Information Society services, the Norwegian authorities notified to the Commission on 18 September 2025 the draft "Consultation on the age limit applicable to child's consent in relation to information society services under GDPR article 8" (hereinafter, "the notified draft").

In order to allow the Commission services to complete their analysis under the relevant provisions of EU law, the Norwegian authorities are kindly invited to reply to the following request for supplementary information.

Article 8 GDPR provides that a Member States's can by means of law provide for a lower age for the purposes of Article 8(1) GDPR. In that context, the Commission services would like to understand why the draft law also provides for a territorial and material scope of this obligation? More specifically, why does the law explicitly specify that the obligation applies regardless of where the data controller or data processor is established? Why is this obligation limited to children residing in Norway and not all children that are at the time of processing in Norway?

The Norwegian authorities are kindly invited to reply by 20 October 2025.
