Draft decree of the Minister for the Interior laying down “technical rules for fire prevention for the identification of the methods for risk analysis and fire safety measures to be adopted for the design, construction and operation of plants for the production of hydrogen by electrolysis and related storage systems”.

6. Plants for the production of hydrogen by electrolysis and related storage systems

7. -

8. The draft decree will define the technical rules for fire prevention for the identification of the methods for risk analysis and fire safety measures to be adopted for the design, construction and operation of plants for the production of hydrogen by electrolysis and related storage systems.
It consists of two articles and one annex, namely:
Article 1: Defines the purpose and scope;
Article 2: Sets the objectives;
Article 3: Approves the technical provisions;
Article 4: Establishes the methods of application;
Article 5: Indicates the construction requirements;
Article 6: Establishes the use of fire-fighting products;
Article 7: Sets out the final provisions;
Annex: Technical rules for fire prevention.

9. The draft defines homogeneous requirements in the national territory and encourages the dissemination and use of alternative fuels on the national territory, in line with the strategic objectives established by the National Recovery and Resilience Plan.
