6. Cured meats

7.

8. This draft is intended to repeal and replace the Ministerial Decree of 21 September 2005, already amended by Ministerial Decree of 26 May 2016, which currently lays down rules for the production of some of the most important cured meat products, in order to implement a quality protection policy, in the interest of both industry and consumers.

9. The draft aims both to harmonise in a single text the amendments made by the Ministerial Decree of 26 May 2016 to the Ministerial Decree of 21 September 2005, and to introduce new regulatory provisions that have become necessary for the needs of the production sector, ensuring complete information to consumers on the regulated cured meats. Compared to the current Interministerial Decree, the draft includes two new products: bresaola, in Chapter V, and speck, in Chapter VI, and finally inserts Chapter VII on common provisions.

For the drafting of the Decree, the method already used for the measure in force was followed, i.e. tracing the definition, production method and qualitative characteristics of each product in the decree, through a careful examination of the Italian production situation and the existing regulatory references.

The statement of reasons for adoption is set out in the recitals of the Ministerial Decree.
