6. Ground-based primary radar systems for flight navigation radio

7.

8. The Interface Description (SSB) regulates the essential requirements for ground-based primary radar systems for flight navigation radio in accordance with Section 4(2) of the Act on the Provision of Radio Equipment on the Market (Radio Equipment Act FuAG).

This interface specification replaces SSB FL 016, June 2013 edition, notified under No. 2013/0517/D.

9. The interface specification serves to ensure both that the radio spectrum is used effectively and that there is support for the efficient use of radio frequencies, so that no radio interference occurs. The interface specification is specified pursuant to Directive 2014/53/EU.
