7.
Directive (EC) N° 94/62 on packaging and packaging waste
Implements the Packaging Directive

8. The draft Order on certain requirements concerning packaging, extended producer responsibility for packaging, and other waste collected with packaging waste organises producer responsibility for, respectively, residential and commercial packaging waste, payment flows between producers, municipalities, and waste-producing enterprises. In addition, the Order lays down 10 categories of materials to be eco-graded, and the detailed design criteria.

9. The Order implements the existing and expected legal bases of the Environmental Protection Act to lay down rules on extended producer responsibility for packaging. Thus, the Order implements Article 7(2) of the Packaging Directive and Articles 8 and 8a of the Waste Framework Directive, as well as parts of the political agreement on extended producer responsibility for packaging and single-use plastics concluded by a broad majority of the Danish parliamentary parties in August 2022.

The Order repeals and replaces the current Order on certain requirements concerning packaging (No 1271 of 6 June 2021) and the current Order on the registration and reporting of packaging (No 466 of 16 May 2024).
