EUROPEAN COMMISSION

Directorate-General for Internal Market, Industry, Entrepreneurship and SMEs
Single Market Enforcement
Notification of Regulatory Barriers

5. Draft Order declaring certain substances and articles as by-products under Law 7/2022 of 8 April 2022 on contaminated waste and soil for a circular economy.

6. Declaration of certain substances and articles of a different nature (production of aluminium, electrolytic copper, synthesis of oxalic acid, agri-food industries and others) as by-products.

7.

8. This Order, valid throughout Spain, establishes the requirements to declare certain substances and articles as by-products, in accordance with Law 7/2022 of 8 April 2022. To this end, the Order provides as follows:

- 1) Requirements for substances and articles to be declared as by-products.
- 2) Obligations of producers of substances and articles.
- 3) User obligations.
- 4) Monitoring by the Autonomous Communities,
- 5) Potential shipments of the by-product within the European Union.

9. There is currently no regulation within the European Union on the substances and articles included in the Order that declare them as by-products. It is for this reason, due to the importance they are to have in the different productive sectors in Spain and the interest shown by these sectors, that the Ministry for the Ecological Transition and the Demographic Challenge has decided to address the regulation as a by-product of several substances and articles.
