8. In the general part:

EUROPEAN COMMISSION

Directorate-General for Internal Market, Industry, Entrepreneurship and SMEs

Single Market Enforcement

Notification of Regulatory Barriers

Recast of the introduction including amendment of the references to the Drinking Water Ordinance (TrinkwV) of 20 June 2023.

Various editorial changes/additions, including in the definitions of terms, in terms/names used in the text and in the naming of tables

Supplementary requirements for perfluorinated substances, catalysts, glass fibres, other fibres and fabrics, dyes, substances with nanostructures, the assessment of elastomers and rubber coatings, querying purity requirements, testing filter membranes and migration restrictions for metals

In the polymer-specific part:

Insertion of a section on glass fibre reinforced plastics (GRP)

Additions to the positive lists in Annexes B (coatings), C (lubricants) and D (elastomers) and minor editorial corrections

9. The assessment basis for plastics and other organic materials in contact with drinking water was last notified under 2021/596/D, 3rd amendment to the new version of the KTW-BWGL.

The amendment of the assessment basis is necessary because some passages have been clarified and in the meantime further source materials have been assessed as suitable for drinking water hygiene and the positive lists are to be extended accordingly.
