8. The notified provision updates the existing fire safety provisions for heat production plants powered by gaseous fuels with a heat output exceeding 35 kW pursuant to the Decree of the Minister of the Interior of 12 April 1996 (notification 1995/393/I) amended by the decrees of 16 November 1999 and 23 July 2001 (notifications 1999/261/I and 2001/20/I).

Specifically, the draft decree consists of six articles and two annexes, namely:

- Article 1: Defines the field of application;
- Article 2: Defines the objectives;
- Article 3: Approves the technical provisions;
- Article 4: Establishes the use of firefighting products;
- Article 5: Establishes the provisions for existing plants;
- Article 6: Sets out the final provisions;
- Annex 1: Technical fire safety regulations;
- Annex 2: List of technical specifications.

9. The technical fire safety regulations for the design, construction and operation of heat production plants powered by gaseous fuels was approved by the Decree of the Minister of the Interior of 12 April 1996.

In recent years, there have been significant technological advances in the plant engineering sector with the publication of the related technical, production and installation specifications adopted by national and EU standardisation organisations.

It was therefore found necessary to update and simplify the fire safety provisions, in particular in terms of the plant engineering aspects and the characteristics of the related environments in relation to plants with a heat output exceeding 35 kW referred to in the aforementioned Decree of 12 April 1996. It is also necessary in order to overcome certain critical issues that currently require the use of specific derogation procedures.

10. Reference(s) to basic text(s): - Decree of the Minister of the Interior 12 April 1996 (corresponding to Notification 1995/393/I);

- Decree of the Minister of the Interior 16 November 1999 (corresponding to Notification 1999/261/I);

- Decree of the Minister of the Interior 23 July 2001 (corresponding to Notification 2001/20/I).

11. No

12. -

13. No

14. No

15. -

16. TBT aspect

No - the draft has no significant impact on international trade.

SPS aspect

No - the draft is neither a sanitary nor phytosanitary measure.
