Notification of Regulatory Barriers

released into a non-blocking state after an accepted breath sample has been presented and analysed for alcohol concentration.

7.

8. The measure in question consists of 9 articles and 6 annexes, which form an integral part thereof.

Article 1. Scope of application;

Article 2 Definitions;

Article 3. General characteristics of the alcohol interlock device installation;

Article 4. Essential technical design and functional characteristics of the alcohol interlock;

Article 5. Obligations of the alcohol interlock device manufacturer;

Article 6. Communication obligations.

Article 7. The installation and removal of the alcohol interlock devices;

Article 8 Verification of the correct operation of the alcohol interlock device.

9. The regulatory measure is necessary to implement the provisions of Article 125(3-ter) of Legislative Decree No. 285 of 30 April 1992, which regulates the characteristics of the alcohol interlock device, the methods of installation and the workshops authorised to install it.
