

FEDERAL LAW GAZETTE OF THE REPUBLIC OF AUSTRIA

Year 2024**Issued on 20 June 2024****Part II**

161. Ordinance: Stockpiling of medicinal products for human use

161. Ordinance of the Federal Minister for Social Affairs, Health, Care and Consumer Protection concerning the stockpiling of medicinal products for human use

By virtue of Section 57a(2) of the Medicinal Products Act, Federal Law Gazette (BGBl.) No 185/1983, as last amended by the Federal Act BGBl. I No 193/2023, the following Ordinance is issued:

Scope of application

Section 1. This Ordinance regulates the stockpiling of the medicinal products for human use listed in the **Annex** for the purpose of safeguarding the supply of medicinal products to patients in Austria.

Stocks of medicinal products

Section 2. (1) Marketing authorisation holders who distribute a medicinal product for human use listed in the **Annex** that has actually been placed on the market shall, within the scope of their responsibility, keep sufficient quantities of said product in stock in Austria to meet patient demand for the respective duration mentioned in the **Annex**.

(2) The patient demand referred to in paragraph (1) shall be determined on the basis of the quantity supplied by the marketing authorisation holder in the last calendar year.

(3) Where marketing authorisation holders are unable to fulfil their obligation under paragraph (1), they shall ensure that the corresponding quantity is kept in stock by an operation authorised to do so. A written agreement must be entered into in this respect, which must be presented to the Federal Office for Safety in Health Care (BASG) upon request. This agreement shall not affect the responsibility of the marketing authorisation holder for the quantity to be stored on its behalf.

(4) Prescription-only, non-patent-protected medicinal products for human use shall be included in the **Annex**,

1. if their unavailability poses a serious and significant risk to the health or life of patients and treatment success cannot be achieved with another medicinal product authorised and available in Austria, or
2. if they have already been affected by a constraint on the ability to distribute in accordance with the Ordinance Safeguarding the Supply of Medicinal Products, BGBl. II No 30/2020, or
3. if a sharp increase in demand for them is to be expected due to high fluctuations in need, for example due to seasonal effects,

and if, according to current scientific knowledge, they are absolutely necessary to ensure the medical care of patients.

(5) Notwithstanding paragraph (4), other medicinal products for human use shall also be included in the **Annex** in justified individual cases, insofar as this is absolutely necessary according to current scientific knowledge to ensure the medical care of patients.

(6) A medicinal product for human use does not need to be included in the **Annex** if stockpiling is not possible due to the nature or peculiarities of production.

(7) The **Annex** must be checked at least every two years to ensure it is up to date.

Exceptions

Section 3. (1) Section 2(1) shall not apply if

1. supply of the medicinal product for human use is required to cover an increase of at least 25 % in patient demand in Austria compared to the demand referred to in Section 2(2), or
2. this is not possible due to force majeure or other events that cannot be foreseen or influenced, or
3. the medicinal product for human use is included in the list referred to in Section 5(1) of the Ordinance Safeguarding the Supply of Medicinal Products, or
4. the marketing authorisation for the medicinal product for human use has been revoked or suspension of the marketing authorisation has been ordered or the marketing authorisation has expired, or
5. the BASG has ordered measures preventing or restricting the placing on the market, or
6. this serves to benefit the European solidarity mechanism.

(2) Minor shortfalls in medicinal product stocks for a brief period that are attributable to usual conditions associated with rolling stock maintenance are permitted.

Notification obligations

Section 4. (1) Marketing authorisation holders shall notify the BASG

1. annually, no later than 31 March of each calendar year, of the demand referred to in Section 2(2), and
2. without undue delay, of any intended shortfall in medicinal product stocks on the grounds set out in Section 3(1) subparagraph 1, 2 or 6, the amount of such a shortfall and the expected duration thereof. The notification referred to in subparagraph 2 shall be accompanied by any documentation enabling the BASG to assess the reasons behind this measure.

(2) If the grounds for a shortfall in medicinal product stocks as set out in Section 3 no longer apply, the stock level required by this Ordinance shall be restored as soon as possible.

EU notification procedure

Section 5. This Ordinance is subject to a notification procedure within the meaning of Directive (EU) 2015/1535 of the European Parliament and of the Council of 9 September 2015 laying down a procedure for the provision of information in the field of technical regulations and of rules on Information Society services (OJ L 241, 17.9.2015, p. 1).

Entry into force

Section 6. (1) This Ordinance shall enter into force ten months after the date of its promulgation.

(2) This Ordinance shall cease to apply three years after its entry into force.

Rauch
