5.

6. Within the framework of the notification procedure laid down by Directive (EU) 2015/1535, the Danish authorities notified to the Commission on 22 August 2024 the draft "Order on graduation drives, parades, etc." (hereinafter, 'the notified draft').

In order to allow the Commission services to complete their analysis under the relevant provisions of EU law, on 25 October 2024, the Commission asked the Danish authorities to justify why the proposal put forward by the notified draft considers that a B/E license is better suited than a D1(E) or D(E) license for the purposes of driving more than 8 passengers on board of a vehicle.

In their reply of 31 October 2024, the Danish authorities replied that a B/E driving license is required to ensure that the driver has the experience and appropriate knowledge to drive a trailer and that this precaution is needed to ensure a higher level of road safety.

Unfortunately, however, the Commission services are of the view that the reply of the Danish authorities does not fully address the initial request for supplementary information. Specifically, could the Danish authorities please clarify why does the notified draft text consider that a category B license is sufficient qualification to drive a vehicle with more than 8 passengers on board, when normally a category D license would be necessary?

The Danish authorities are kindly invited to reply by 8 November 2024.
