Dear Johan,

With regard solely to the assessment of the economic impact on trade and industry, based on your description, in my assessment, there are no new administrative consequences for trade and industry.

Sincerely,

Sarah Ulbæk Terkildsen
Administrative Officer

Dear Sarah,

The assessment that the change does not entail any economic consequences for trade and industry must be included in the EU notification.

I therefore think it is better if the answer about the following is sent in a separate email. Do you have the possibility to resend the answer (that it does not have any economic consequences for trade and industry), but only regarding it? Thank you in advance.

Sincerely,

Johan Vestergaard Paulsen

Subject: LCA requirement follow-up, correction to table

Dear Sarah,

As just mentioned,

we are about to request the BR18 amendment to revise the LCA requirements for 2025. You have been our contact person on this.

We now need to make two corrections in Table 7. See the attached draft amending Order. If you search for the word 'Correct', two comment fields will appear, where you see the values that will be corrected. In our assessment, the correction of these two values has very modest economic consequences. Do you agree? I consider this to be independent of the business economic consequences that are already being assessed by you.

Please call me if we need to discuss this further.

Sincerely,

Johan Vestergaard Paulsen
