3. The Commission services would welcome more information on whether section 3 of the notified draft is also intended to apply to providers of online intermediary services as defined in Article 3)(g) of Regulation (EU) 2022/2065.

In the affirmative, the Commission would welcome more information on:

4. The Commission services would welcome clarification on the scope of "online platform incorporating the functionalities of an online social networking service where, owing to the content disseminated or the recommendation systems used, it is likely to be harmful to [the minor's] physical, mental or moral development" as per Article 6-9 -I, and on which criteria the list established by order of the Minister responsible for digital matters is based. In this regard, clarifications are welcome with respect to the definition of i) "online platform" and ii) "online social networking service". Additionally, the French authorities are kindly invited to elaborate on the notion of services that "substantially reproduce the content or recommendation systems of one of the services included on [the] list" as per Article 6-9 - 1 ter (new).

8. In order to identify the proportionality of the notified measures, could the French authorities provide further information on how the identity and authority of the consenting parent or legal guardian will be ensured, how consent will be managed and revoked over time, How will the provider of online social networking services in scope identify the relevant parent or authorised person in all possible minors' family circumstances? The French authorities are also invited to clarify whether Article II implies that, as of 1 January 2027, providers within scope of the notified draft and listed as per Article 1 (bis new) would be required to obtain express prior consent where the user is not a minor under the age of 15.
